

# INNOVATION

*Swimage Monthly Newsletter*

## Creating a Culture of Innovation

Swimage enterprise automation solutions have helped global businesses thrive remotely.

Through continuous improvement implementations, Swimage enhances the tools necessary to help organizations strategize remote workforce productivity and establish efficiency standards.

Swimage has just released version *10.1.8*. Attached you will find a roadmap overview, highlighting features and new enhancements.

We are happy to supply our customers with valuable continuous improvements that positively impact organizations. We look forward to sharing monthly communications with our clientele as we continue to accelerate innovation.

### IN THIS ISSUE

CREATING A CULTURE OF INNOVATION

ENABLING REMOTE WORKERS THROUGH SELF-SERVICE

RETROSPECT: A LOOK BACK AT LAST YEAR

# A Single Click

..from the remote user to enable rapid reliable solutions

## **Enabling Remote Workers through Self-Service**

Swimage recognizes that employee self-service is a must-have for remote employees and has really made a difference for remote workforces. Rapid, simple, single-click solutions have been enabled for various use cases, including: break/fix, malware, domain changes, OS upgrades/migrations, PC replacements, and more.

## **Retrospect: A Look Back at Last Year**

A lot has changed in one year. Swimage recognizes that business environments, opportunities, and necessities are constantly changing. Swimage continues to refine and reinvent various automated solutions. Remote deployment capabilities have never been more efficient.

Our latest enhancements include: enabling users to self-service deploy without admin rights, updating remote connection manager for additional VPN clients, and enabling automation ability to track and update remote kits.

Communication is an important factor in improvement processes. We look forward to providing you with monthly newsletter updates. Swimage newsletters will highlight ongoing change improvement factors and expected benefits.

We are pleased to announce the newest Swimage release. Most importantly, we are pleased to communicate these updates with our outstanding customers.
